

Interfaith Fellowship of Augusta

Statement of Agreement and Membership

The IFFA is a nonpartisan interfaith organization created to build bridges among, and respect for, diverse faith traditions in the Augusta area.

Seeking membership in the IFFA,

I agree to support it in educating the community about other faiths, and specifically about how the positive role of religion can heal rather than divide people.

I agree to better the community by expressing IFFA values through action:

Our values include respect (we facilitate respectful communication among diverse faith communities), understanding (we promote further education about, and knowledge of, diverse faith traditions), and compassion (we support each other in times of discrimination).
